

re: MB Docket # 04-233

The local fm translators in my area of Salt lake City that I use on a daily basis for ALL of my listening needs would be impacted by the LPFM being given priority over the translators. The two stations I listen to are K-Love at 89.7 and CSN Radio at 90.5 It would be a great hardship to my family to not have the ability to hear positive and uplifting music, bible teaching, and news. I ask you to please consider the impact that this might make to the translators in my area. Thank You for your time.
